A gentleman in the South of Europe and Palestine, in A gentleman in the South of Europe and Palestine, in 1830, heard so midel said in the latter place in favor of JEW DAVID'S PLASTER, and of the (as he considered) miraculous cures it had performed, that he was induced to are it on his own person, for a Lung and Laver Affection, the removal of which had been the chief object of his journey, but which had resisted the genial and delicious clime. He accordingly applied a plaster on the right side of his chest where the pain was seated, another between the shoulders, and one over the region of the liver. In the crean time he drank freely of an herb tea of laxative qualities. He soon tound his health improving, and in a few weeks his cough left him; the sallowness of his skin disappeared, his pain was removed, and his health became permanently reinstated. The following is from Mr. Worstell, editor of the Mas-

"GENTLENEN.—During last winter and spring, I was so troubled with a pain in my breast as to render me unfit for the duties of my office; and hearing your JEW DAVID'S or HEBREW PLASTER highly recommended for VID'S or HEBREW PLASTER highly recommended for similar cases, I was induced to give it a trial. I had worn a plaster upon my breast but a short time, when all pain left me, and I was enabled again to engage in the labors of the office. I would also state, that my sister, residing in Steubenville in this State, has received much benefit from

Sympathetic Nervous Affections attendant on Pregnancy.

Much of the suffering attendant upon the lives of females at the present day may be traced to some slight imprudence or neglect during some critical period of their peculiar seasons, causing obstructions, irregularity, &c., which, if not relieved, gradually weakens and deranges the system, and by sympathy induces those chronic forms of disease—Consamption, Propey, Dyapepia, &c—which either hurry them to an early organ or resider them invalids for life. Many of samption, Propsy, Dyspepsia, &c—which either hurry them to an early grave or render them invalids for life. Many of the fairest and lovellest of creation, at that age when the bud was just bursting into bloom, have withered and died from the effects of obstruction, and the want of a remedy to assist nature at that eventful period.

AFFLICTED READ!

PHILADELPHIA MEDICAL HOUSE.—Established 15 years ago by DR. KINKELIN. The oldest, surest and best hand to cure all forms of secret diseases of the akin, and solitary habits of youth, is DR. KINKELIN, N. W. corner of Third and Union streets, between Spruce and Pine, one and a half squares from the Exchange, Philadelphia.

Take Particular Notice.—There is a habit which boys teach each other at the academy or college—a habit indulged in when by themselves, in solitude, growing up with the boy to manhood, and which, if not abandoned in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of those who indulge in this pernicious practice are aware of the consequences, until they find the nervous system is shattered, feel strange and unnecountable feelings, vague fears in the mind. The individual becomes feeble, he is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is duli and irresolute, the countenance is downcast, the eyes without natural tustre, shainefacedness is apparent.—These are symptoms telech should onesten the attention of those similarity afflicted. hose similarly afflicted.

If the victim be conscious of the cause of his decay, and

If the victim be conscious of the cause of his decay, and having relinquished the odious practice, he suffers under those terrible nocturnal emissions, which weaken and shame him, producing mental and physical prostration. If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his senses tell him that this is caused by his early follies.

Too many think they will him the secret to their own hearts, and cure themselves. Alas! how often is this a fatal deluxion, and how many apromising youth, who might have been an ornament to society, has faded from the earth!

Young Men I—Let no false modesty deter you from making your case known to one who, from education and respectability, can alone befriend you. He who places himself under DR. KINKELIN'S treatment, may religiously confide his honor as a gentleman, and in whose bosom will be for ever locked the secret of the patient.

MEDICINE.

HENRY'S INVIGORATING CORDIAL,
PURELY VEGETABLE IN ITS COMPOSITION.
This invaluable Cordial, is extracted from Herbs and Roots,
which have been found after years of experience, by the most
skillful Physicians, to be possessed of qualities most beneficial in the diseases for which itls recommended, and hence
whilst it is presented to the public as an efficacious remedy,
it is also known to be of that character on which reliance
may be placed as to its safety. In cases of Impotency, liemorrhages, Disordered Stertility, Menstruation, or Suppression of the Menses, Flour Albus or Whites, or for
Debility
arising from any cause, such as weakness from sickness,
where the patient has been confined to bed for some time,
for Females after confinement, Abortion or Miscarriage, this
Cordial cannot be excelled in its saintary effects: or in loss of
Muscular Energy, Irritability, Physical Prostration, Seminal Weakness, Palpitation of the Heart; Indigestion, Singgishness, Beeny of the Procreative Functions, Nervousness,
duc., where a roase Medicine is required, it will be found
equal, if not superior to any Compound over used.

To Females.

Henry's Invigorating Cordial, is one of the most vasuable
Medicines in the many Complaints to which Females are
autiped: It assists nature to brace the whole system, check
excess, and creates renewed health and happiness. Less
suffering disease and unbappiness among Ladies would exist, were they generally to adopt the use of this Cordisi—
Ludies who are debitiasted by those obstructions which fomales are liable to, are restored by the use of a bottle or two,
to bloom and to vigor.

Young Men:

Weakness of the System, and Premuture Decay. Many of you may now be suffering, misted as to the cause or source of disease. To those, then, who by excess have brought on themselves Premuture Impotency, Involuntary Seminal Emissions, Weakness and Shrivelling of the Genital Organs, Soryous Affection, or any other consequences of unrestrained ladulgence of the sensual passions, occasioning the necessity of renouncing the felicities of marriage, lessening both mental and bodily capacity. Hold! Henry's invigorating Cordial, 2 Medicine that is purely Vegetable, will aid nature to restore those important functions to a healthy state, and will prove of service to you. It possesses rare virtues, is a general remover of disease, and strengthener of the system.

As a Touic Medicine,
It is unsurpassed. We do not place this Cordial on a footing

DR. JOHN BULL. SOMETHING NEW AND VALUABLE. THE most powerful King on the face of the globe now reigns supreme in the American Republic. The power of the crowned heads of Europe sink into insignificance when compared to that of our American King.

European Kings employ the power vested in them to
increase the riches of the rich and lordly, and to reduce
to greater misery and degradation the poor and dependent. Our American King goes forth with equal willingness to the lordly massion and humble cabin, ready alike
to administer relief and to offer health and happpiness
te the lofty and lowly, the rich and the poor. DR. JOHN BULL'S

GREAT AMERICAN KING Is the TENTE WONDER OF THE WORLD, and the greatest blessing ever offered to amected numanity; to the suffering millions, the Doctor can say, relief is at your command. You have only to use this magical remedy. All those who still suffer, and will not accept the profilered halm, deserte not the pity of their families.

This wonderful medicine, during the brief period since its introduction, has carried happiness to the hearts of thousands, and made life a charm to many who heretofore recarded it only as a mainful and miserable existence. mousance, and made me a coarm to many who heretofore regarded it only as a painful and miserable existence. To the winds with all Linimenta, Embrocations, Pain Killers, and Pain Extractors, and let millions of glad tongues proclaim the merits of the great "American King of Pain," a preparation composed solely of vegetables and roots, produced by America's own rich and

hies and roots, produced by America's own rich and bountous soil.

We would ask the Labris, who are always competent judges of what is and what is not a valuable family medicine, to do us a special favor by giving the King of Fain a single trial, and if satisfactory, exert their influence in its behalf, recommend it, speak well and often of it, and see that it is used by their afflicted neighbors. The Ladies are always charitable, and when they induce their suffering friends to use this really valuable medicine, they will be doing an act of benevolence that they can well be proud of. This is a powerful and truly magical remedy for all external diseases, sores, swellings, burns, &c., and for many internal afflictions, is he accrain cure, yet it is perfectly harmless, and incapable of producing the least injurious effects in the most delicate cases of the weakest constitution.

It is entirely useless to follow the old and worn-our system of publishing to the public thousands of certificates of weakers.

it is entirely useses to follow the old and worn-out system of publishing to the public thousands of certifi-cates of wonders performed by this medicine. It costs but twenty-fire cents to try it; and Dr. Bull stakes his well-earned reputation on the King of Pain doing all and more than he claims for it.

We would ask, have you the Rheunatism or Gent: these are not pleasant companions, and we know that you would like to drive them away as soon as possible, then use # "BULL'S KING OF PAIN."

Would you be cured almost immediately, of Bowal Compisint, Dysentery, Summer Compisint, Cholera Morbus, Cramp Colic, Head Ache, Tooth, or any other ache or pain, the remely is simple and the cure certain. USE THE GREAT KING OF PAIN. Fould you have your Sores, Swellings, Cuts, Burn. lds, Bruises, or any other wounds healed, we reper

A GUE AND FEVER, OR CHILLS AND FEVER VER CURED BY SMITH'S TONIC SYRUP.—This lustly celebrated Medicine has for many years maintained its superiority over all other remedies, for the safe, certain, speedy, and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing; and in no case will in fall to cure, if the directions are strictly followed and carried out.

This remedy has been extensively used throughout the States of Kenuncky, Tennessee, Ohio, Indiana, Pennejirania, Michigae, lowe, Wisconsin, Illinois, Missouri, Texas, Arkansas, Alahama, Mississippi, and Louisiana; and has permanently cured over rive museant processing cases, in all its varied forms, many of which had been of from one to three years' standing, and had resisted all the natual remedies known in the country; and in no case did this Medicine fall where the directions were properly followed. Such is its invariable success, that is large number of respectable Practitioners of Medicine, in various parts of the country, use and prescribe it in preference to quinine and all other

Practitioners of Medicine, in various parts of the country, use and prescribe it as preference to quinine and all other remedies.

The public are assured that it is not only certain in its efects as a Tonic, but being composed entirely of vegetable medicines, is perfectly innocent in all cases or circumstances, and may be given to females, infants, and all persons of debilitated and delicate constitutions, without the least fear whatever of any unpleasant effect.

This Medicine is composed of articles of the primest and purest quality, and is always made by the proprietor in person, after the established forms of pharmacy (which cannot be said of the many Tonics now flooding the Western and Southwestern country) and in this respect alone is rendered greatly superior to the remedies usually prepared and sold in the country.

By its apperent and powerful diaphoretic properties, added to its Tonic qualities, it is rendered emimently superior to quinine and other remedies as a general and popular Tonic in all cases whatever, where Tonics are proper to be administered. The proprietor, therefore, respectfully invites practitioners and the public generally to give it but a fair trial, and they will then be convinced of its great superiority over all other remedies now in use for the purpose specified.

Persons living in districts of country subject to Ame and Pever, thills and Fever, or Bilious Fevers, would do well to keep a supply of this valuable remedy always on hand.

The proprietor has now in his possession thousands of certificates of its value, given by persons who have used it, with many letters from merchants who have used it in preference to other remedies, avesting the value.

NONE SO EFFECTUAL.—The lessons of experience are the most reliable, and, if not too costly, are
songht after by the practical. The following is the veluntary testimony of a worthy and well-known physician, relative to his experience of the efficacy of B. A. Fahnestock's
celebrated VERMIFUGE, during a practice of twenty five.
Years:

Gurnda, Miss., May 25, 1855.

Messrs. B. A. Fahnesrock & Co.—Geute: I am one of those
individuals backward in giving certificates, but in the present instance consider it due to humanity to say that I have
been engaged in the practice of medicine for twenty-five
years, and have never met with any remedy so effectual for
WORMS as your VERMIFUGE. In adults, even in cases
of FEVER, I sometimes use it to carry off calomel taken
the previous night, and often fund bilious evacuations and
worms to follow. I use no other VERMIFUGE in any practice, and desire no better. Respectfully.

A Presbyterian elergyman in Obio, in writing of "Haner's Medical Manual, says.—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution without realiz-

ing the sin and fearful consequences upon themselves and posterity. The constitutions of themsands who are using families have been enfechled, if not broken down, and they do not know the esuse of the cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide spread source of human wreteledness, would conier the greatest blessing next to the religion of Jesus Christ, on the present and coming generations. Intemperance (or the use of intoxi-cating drinks,) though it has slain thousands upon thous-ands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and, your coworker in the good work you are so setirely engaged in. A Great Medicine for Femnies,

The unparalleled offects of this great restorative, in all complaints incident to demaids, mask a new set in the annals of medicine. Thousands of stimulants have been favored—thousands of invigorants concoded—all purporting to be specified in the various discusse and dermagements to which the delicate formation of woman render her table.

The result has heretoore been uniform. These nontrumalized infanishment and delicave vigor to the invitation of the arrows system, a franciscal and delicave vigor to the invitation and prostration greater than before, and the end has been addressed by a depression and prostration greater than before, and the end has loo offer near and the vital organization, and handly to desirely the unamppy pations. The herb which forms its main ingredient, has been admitted by all the great medical and paarance niteal institutions of karope to be in this respect on generis. Dr. Morse, whose name is an undisputed authority in sciences, discovered the production in Arabia, where his altention was excited by the wonderfully invigorating effects it produced upon the ratives. In fact the wenderful power of endurance, the extinuations production is an arithmethod by the Arab, of both screen in their tabiling herb.
